Solar Energy Use in Outdoor Swimming Pools SOLPOOL

**List of outdoor swimming pools awarded with the SOLPOOL info
panel in Greece**

The SOLPOOL information panels were distributed to the following list of pools in order to be displayed during 2009. The selection criteria were basically:

- The existence of a solar thermal heating system (Pool identified as good practice example)
- The willingness of the hotel owners to include a Solar Thermal system for outdoor swimming pool heating in the next renovation project (Hoteliers who participated in the Solpool workshop for owners and operators, 23/04/09).
- The level of interest of pool operators and owners who filled the WP data collection questionnaire and they were interested in getting further information on ST technology for pool heating.

Pool name	Pool address	Type of pool (outdoor, indoor, combined, municipal, hotel, with or without solar thermal system, etc)	Picture of placed poster (you can attach it as Annex)
